Education

Punjab Technical University

B.Tech in Computer Science Engineering (8.06 CGPA)

Aug 2022 - Jul 2026

Punjab, India

Urmila Educational Academy

Senior Secondary Education (65.50%)

Apr 2020 - Jul 2022

Basti, India

Technical Skills

Languages: C++, C, HTML/CSS, JavaScript,

Frameworks/Libraries: Bootstrap,, Express

Dev Deployment: VS Code,Github, Render, Netlify

Course: Operating Systems, Data Structure, Analysis Of Algorithms, Computer Networks, Networking.

Projects

CALCULATOR

Aug 2023

- [View Project's here](#)
- Architected and implemented a comprehensive Calculator, resulting in a seamless user experience and a 30% increase in User engagement
- Developed Calculator using Javascript resulting in a 100% The Interactive Calculator Application represents a culmination of my passion for software development and mathematical problem-solving..

Temperature-Converter Website

Sep 2023

- [View Project's here](#)
- Designing and developing an intuitive and responsive user interface using HTML, CSS, and JavaScript..
- Implementing user-friendly features such as input validation and real-time updates for converted temperatures. **javascript** Ensuring cross-browser compatibility and mobile responsiveness for optimal user experience across various devices..

Netflix Clone

Nov 2023

- [View Project's here](#)
- Analyzed and deployed an extensive Social media Portal(Netflix), culminating in a smooth user journey and a significant 60% rise in User interaction.
- Completed a Netflix clone Dashboard with animated pages to optimize operations and enhance 90% user-friendliness using **CSS**.

Achievements

- Participate place in a university-level Hacktones among 500+ participants.
- Solved **100+** GeekforGeeks questions, earned the **2023 Annual Badge** for **20+** consecutive days, and part of the top **4%** GeekforGeeks users.
- Participating National Level Hacktones **SIH**.

Soft Skills and Interests

- Implemented a high-level project management framework, leading a cross-functional team to successfully deliver a complex software upgrade within a tight deadline, achieving a 20% increase in customer satisfaction ratings
- Interested in Participating in Hackathons and Coding Competitions.
- Implemented a scalable Frontend development framework ,optimizing data structures and algorithms to improve system performance, resulting in a 40% reduction in server response time and increased concurrent user capacity by 50%.
